

Real systems. Set up right. Run by you.

BRAND TAGLINE
5-7 WORDS

01 BRAND ESSENCE

ATX AI Labs is the **operations consultant** for **Austin trades** who don't want to become **tech people**.

The seed line. Each italic phrase does specific work: *operations (not AI), Austin trades (niche), tech people (the philosophical wedge).*

THE WEDGE — WHAT SEPARATES US

We don't sell AI. We sell **finished systems** — built around AI, around your existing tools, and around the way your business actually runs.

02 WHAT WE STAND FOR

CONVICTION 01

Trade owners are not the problem. The systems are.

The chaos isn't a character flaw — it's a system design failure. We fix systems, not people.

CONVICTION 02

Implementation is the work. Tools are the supplies.

Anyone selling you AI is selling you the wrong thing. Buy implementation, and let the tools serve that.

CONVICTION 03

Honesty over enthusiasm. Always.

We'll tell you when not to buy from us, and when a \$30 fix beats a \$3,000 system.

03 VOICE FINGERPRINT — FIVE ADJECTIVES

01

Plainspoken

Short sentences. Real words. If a contractor wouldn't say it, we don't.

02

Direct

Says the thing. "This won't work" beats "may not be ideal."

03

Skeptical

Of AI hype, vendors, one-size advice. Never of the audience.

04

Warm

Like a good GC. Serious, on your side, not coddling.

05

Confident

Done the work. Knows it. No flexing, no dunking. Quiet wins.

04 ANTI-POSITIONING — WHAT WE ARE NOT

Not a tech bro. No hype. No startup vocabulary.

Not a generic SMB consultant. Trades only. Texas only.

Not a marketing agency. We don't bring leads — we stop you losing them. **Not** a software reseller. Tools are commodities; configuration is the craft.

05 COLOR PALETTE

PRIMARY	BACKGROUND	ACCENT	TEXT
Workshop Blue #2E5C8A	Warm Cream #F5F1E8	Dirt Orange #C8702D	Charcoal #2A2A2A
Headlines, navigation, anchors. Authority without corporate-cold.	Default page background. Workshop-paper, not tech-startup white.	CTAs, highlights, signal moments. Used sparingly. Evokes work gear.	Body copy. Softer than pure black. Less harsh on screens.

06 TYPOGRAPHY

Bricolage Grotesque Operations Consultant Headlines, taglines, tier names. Weights 500 / 700 / 800. Tighten letter-spacing on display sizes (-0.02 to -0.04em). Free via Google Fonts.	DISPLAY	DM Sans We don't sell AI. We sell finished systems — built around the way your business actually runs. All body copy, captions, UI labels. Weights 400 / 500 / 700. Generous line-height (1.45+). Free via Google Fonts.	BODY
--	---------	--	------

07 PHOTOGRAPHY — DO & DON'T

DO	DON'T
Real photos. Phone cameras in good light beat stock every time.	Glowing-brain illustrations. Robots. Hands touching holograms.
People, places, trucks, tools. Show the work happening.	Blue-tinged data viz stock. Headset-wearing customer service models.
Austin-specific where possible — pecan trees, limestone, hill country light.	Anything labeled "AI" on a stock photo site — full stop.
Hands working. Screens being looked at. Conversations happening.	Heavy filters or anything that signals tech-startup.

08 WORDS — USE & BANISH

USE OFTEN	BANISH
"Set up correctly the first time" "Stop the bleeding" "Real systems, not stacks of unused logins" "We handle the tech so you don't have to" "The chaos isn't your fault" "You own the system"	Revolutionary Game-changing Cutting-edge "AI-powered" (when describing yourself) Solutions Transformation Empower Synergize Leverage Unlock potential "In today's fast-paced world..." Anything starting with "Imagine if..."
